

Light Handle

Adapter Matrix

Enhancing Your Illumination, Every Step of the Way

Skytron's state-of-the-art surgical light handles are the perfect combination of precision, durability, and ergonomic design built to meet the demands of the modern operating room. When it comes to providing exceptional illumination and control during surgical procedures, our handles are the trusted choice of surgeons and medical professionals worldwide.

Distinctive Ergonomics

We understand the importance of comfort during long surgical procedures. The lightweight and balanced construction allow for easy maneuverability, ensuring that you can position the light exactly where you need it with minimal effort.

Hygienic Design

Maintaining a sterile environment is critical in the operating room. Our handles feature a hygienic design with smooth surfaces and minimal crevices, making them easy to clean and disinfect to meet the highest standards of infection control.
