

Skytron Stacker

Lateral Support

Skytron Stacker Lateral Support is an innovative, cost-effective solution for optimal lateral patient positioning. The Arm Stacker provides a superior ability to position patient arms perpendicular to the upper torso, while the Leg Stacker provides maximum cushioning and support to the legs, reducing the risk of injury. The system is designed for left or right-sided positioning of the patient and is great for use in surgical and non-surgical inpatient and outpatient procedures (including minimally invasive surgeries). Armboard pad sets are available in standard and bariatric sizes.

Work With Ease

Ease of adjusting to different patient sizes and anatomy with the ergonomic padding and the flexibility to setup for a case on either side of the surgical table.

Patient Safety

Prevent pressure induced trauma from the support and ultra soft cushioning pads.

Great Patient Access

Cushions prevent the patient's legs from touching each other or the surgical table and facilitates easy access to shoulders, head, neck, torso and extremities.

Skytron Stacker

Lateral Support

Skytron Stacker Lateral Support positioning benefits include those for:

Anesthesiology	Epidural Injection; Spinal/Epidural Anesthesia; Lumbar Procedures
ENT Otolaryngology	Posterior Neck Tumor Excision
Gastroenterology	Gastroscopy; Endoscopic Retrograde Cholangiopancreatography; Colonoscopy; Sigmoidoscopy; Anoscopy; Proctoscopy
General Surgery	Adrenalectomy; Flank Incisional Heriorrhaphy
Neurosurgery	Craniotomy; Vertebrectomy; Discectomy; Lumboperitoneal Shunt Insertion; Intra-thecal Pain Pump Placement
Obstetrics	Maternal Lateral Positioning; Pregnancy Fetal Monitoring
Orthopedic Surgery	Total Hip Arthroplasty
Plastic Surgery	Tram Flap Latissimus Muscle Breast Reconstruction; Mass Excisions of Shoulders and Back
Pulmonology	Bronchoscopy
Urology	Open & Laparoscopic Transperitoneal, Retroperitoneal Kidney; Ureter Surgery; Transrectal Prostate Ultrasound; Prostate Biopsy
Radiology	Cross Table Lateral Abdominal X-Ray; Nephrostomy Exchange
Thoracic Surgery	Thoracotomy; Thoracoscopy

- Part No. 2-060-06 (Special Armboard - Universal)
- Part No. 2-060-06-P (Bariatric Armboard Pad Set)
- Part No. 2-060-06-PM (Standard Armboard Pad Set)
- Part No. 4-030-66 (Leg Pad Set - Universal)

Skytron provides safe and efficient healthcare solutions delivered through a local representative network that values long-term relationships and comprehensive service. Focused on providing the highest quality solutions while delivering the lowest cost of ownership, we prioritize transparency and accountability in our actions.
